III. 1 What did you like about the class?

Very Hand-on.
EVerything
The teacher has wealth of knowledge
The instructor was engaging and helpful.
The website pre-launch test project
This is the class the like the best so far in this program. It had elements of design and, finally, I got to learn something about Software Quality assurance.
- Fast pace - Hands-on experience - Availability of instructor for questions
Very Informative
I like the fact I learned about HTML and CSS
Professor Burnett is Amazing! He covered lots of stuff in short time frame but explained easy way.

Very engaging class. Great professor with amazing teaching style.
Assignments slowly increase in complexity, but is built-up on the original
assignment, so we can see the progress.

It was so interactive and more hands on excerises

III. 2 What didn't you like about the class?

N/A

The time was to short. Not enough time for exercise.

it was fast

N/A

It was a little fast for my speed of learning. However, it may be the case that
I learn slower than the average student.

- Inability to do work outside of class because of server restrictions -
Computers turning off soon after class' end preventing ability to do work
after class

A bit fast

N/A

N/A

I would've liked the chance to actually analyze the generated reports for the
new MC site.

IT is short

III. 3 What improvements would you suggest?

N/A

Adding more time would help us.

more time for each topics

N/A

I can't think of anything right now. The professor has been amazing, skillful

and knowledgeable.
- Extended availability to site facilities - More explanation of how to conduct tests - A little more guidance/hand holding in class notes and handhouts
one Improvement is to add open lab time before and after class
This is for the Montgomery College Silver Spring computer department. The computers in the lab shutdown after 15min class end without warning. This happened twice. Most of the student did not have change to save documents and this is not very professional specially college environment. Please give some warning or extend time that computer shutdown.
IF we could do more web analysis study it would be very helpful

III. 4   What other classes would you like to see offered?

N/A
NA
Java Programming
frames class

IV. 1   How did you find out about this class?
