III. 1   What did you like about the class?

Interactivity and immediate application of what was being taught was very useful for understanding the material.
I liked that I was able to understand why XML and AJAX is used and how to complete some basic interactivity.
L know how to get Json and xml
being able to create actual XML & JSON files
I learned the basics of XML, JSON and AJAX. I also have good resources to follow up on studying these languages with the PowerPoints and other links.
everything

III. 2   What didn't you like about the class?

The exercises in the book could be expanded.
nothing
Nothing in particular.
there was nothing I didnt like about this class

III. 3 What improvements would you suggest?

This course, if longer, could introduce practice writing different data structures.
nothing
maybe another week of the course
Maybe one more week to cover more in-depth.
faster computers

III. 4 What other classes would you like to see offered?

I would like to see a longer javascript course.
no
Classes related to front-end WD.
a whole bunch(php, react)

III. 5 What is (are) your reason(s) for taking this class?

Need to understand XML/AJAX for my work Get the certificate.
I am taking this class for professional reasons.
I want to find a job in computer field
to learn more about front-end web design
I just finished the Java Web Development BootCamp where projects where built with maven and included a pom.xml file. Although we managed this file, there was not much time to discuss all of its capabilities or what an .xml file was, properly.
to become a web dev

IV. 1 How did you find out about this class?
