III. 1   What did you like about the class?

I liked the focus on incorporating mobile elements into the course. But, it would help if it was added a bit earlier.
Being able to work on mobile development. Although is was little. It is very useful info to have
Excellent slide presentations and explanations by Carl.
interactivity
Good teacher
Excellent instructor, professional and experienced. I attended both Level I and II and will strongly recommend this instructor to my co-workers.
Professor Burnett came to class extremely prepared.
I learned a lot more about designing my website even though I did not learn as much as other students because I entered the class with less computer skills
enables me to do a web site.
The way that the Professor incorporated feedback into classes- Very Flexible

III. 2   What didn't you like about the class?

I felt we rushed a bit at the end, but at times the pace was too slow.
n/a
nothing
the weather
Went too fast for me, but then again I was sick for half of it. There were too many new terms inside of tags for me to keep up with what they meant and how they worked.
N/A
They had a very good flow, and they followed the book. Posting his presentations online were also a great asset to reference.
a little too fast

III. 3   What improvements would you suggest?

As mentioned above, more of a focus on mobile jQuery if possible.
having remote access to dreamweaver so exercises can be done from home.
A third course which would be a student project to put everything together.
none
It is already a good class.
N/A
None.
I would like a printed version of the HTML5 AND CSS commands and tags-

I know that they are available online, but I find -, easier to read from paper than having to flip back and forth to different sites

III. 4   What other classes would you like to see offered?

N/A

n/a

More mobile development classes

IV. 1   How did you find out about this class?
