III. 1 What did you like about the class?

stress free and friendly environment with clear instruction
the pace, the content, the instruction. I am now able to use JavaScript at work. It has been very successful
I like that the class is very hands on

III. 2 What didn't you like about the class?

I personally need more time to learn the material more than the class provides.
No issues or dislikes to report
5 days are not enough

III. 3 What improvements would you suggest?

slower speed and more classes sessions for people who don't immediately understand the material within seconds of teaching. MY work schedule also did not allow much time to work on material to learn outside of class time. I personally need a lot more time to learn a new coding system.
